

CheckDo App

This is an Android tasks app named “CheckDo”. The zip file includes:

1. CheckDo app. It has the actual code of the application.
2. Project Notebook. It has the documentation report of the application for each sprint.

(1-1)

After installing the app, you need to sign in by using two different ways. First way you can sign in directly by using your Gmail account (1-1). Second way, you can click on “Sign up now” to create your account by using any email you like to use (1-2).

(1-2)

In this screen, you have to put your name, email and the password. Then click on “REGISTER” button to create the account (1-2).

(1-3)

(1-4)

After installing the app, and you sign in by using any of the two ways. Then you will see the main screen of the app. In this screen you can see all tasks. If you want to go to your lists, you have to click on the left button at the top (1-3). Then it will show to you “My Lists” screen. In

this screen you can add lists for the tasks. If you want to create a new list, you just have to click on “+” to add the list (1-4).

(1-5)

(1-6)

(1-7)

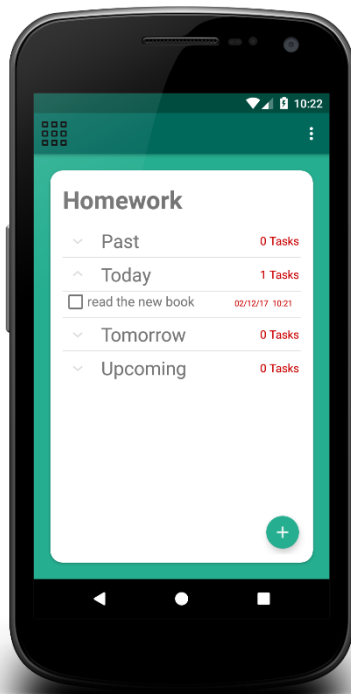

(1-8)

After creating the list (1-5), you are now ready to add tasks in that list. In the list you can see the dates of the tasks such as Past, Today, Tomorrow and Upcoming (1-6). If you want to add task, you have to click on add button “+” (1-7). Also, you can sort the tasks by time or by list, share and clear completed tasks (1-8).

(1-9)

There is another way to add tasks. You can click on calendar button, then it will show to you the calendar screen. From the calendar you can choose directly a specific day and month to add tasks.

(1-10)

(1-11)

(1-12)

After adding the task (1-10), you can add remainder for your tasks, delete tasks (1-11) and add notes and attachments (1-12) by removing the task to the left side you will be to do all of them.

(1-13)

(1-14)

From “My Lists” you can see your profile and you can plan your day tasks by using “Plan My Day” (1-13). Through “Plan My Day” feature you can change the tasks time, day, and you can complete or delete task (1-14).
